

KINGS UNIVERSITY COLLEGE

FACULTY OF COMPUTER SCIENCE AND ENGINEERING – A FAST GROWING SCIENCE & TECHNOLOGY FACULTY

Kings University College has been institutionally accredited by the Ghana Tertiary Education Commission (GTEC) since January 2010. The University is also affiliated

MR. YONNEY AHLIJAH
(Acting Dean)

to the University of Cape Coast (UCC). Per this affiliation protocol agreement UCC awards degrees to graduates of Kings University College upon successful completion of their studies.

The Acting Dean of Kings University College Faculty Computer Science and Engineering is Mr. Yonney Ahlijah. Mr. Ahlijah has over ten years of teaching, industrial and managerial experience in ICT. The Faculty has outstanding Professors, Senior Lecturers and Teaching Assistants who are passionate about impacting students with knowledge and practical skills. They mentor students and are readily accessible by all students.

At present the Kings University College Faculty of Computer Science and Engineering offers two main programmes at the undergraduate degree level. These programmes are:

1. Bachelor of Science in Computer Science
2. Bachelor of Science in Information Technology

The uniqueness of the Faculty of Computer Science and Engineering are as follows:

1. Offer of GHS500.00 per semester as bursary to students who pay full fees at the start of semester.
2. Flexible fee payment options available to students
3. Online lectures available to weekend students on Friday evenings
4. Offer Professional ICT certificate programmes such as CISCO and Microsoft
5. The Faculty organises at least one seminar for students every semester
6. Well-furnished and ultra-modern computer laboratory

7. ICT hub for students to encourage intellectual discussions
8. E-learning platform for students
9. Group project works for students

10. Well-stocked library with current ICT books

11. Educational fairs for students to show case their projects

Further, Kings University College offers specialised certificate programmes to its students. These specialised certificate programmes are designed to enhance employability skills of our graduates. The certificate programmes are offered online concurrently with the degree programmes. Students have the option to choose any of the three under listed certificate programmes that they may deem relevant to their future career prospects.

1. Entrepreneurship
2. Data Science
3. Paralegal studies

The 2022/2023 admissions are still open. We admit students with WASSCE results (A1-C6), mature students (25 years and above) and HND holders to study B.Sc. Computer Science or B.Sc. Information Technology programmes. Kindly contact the Kings University College at the addresses below:
